The Pennsylvania Smoke-Free Association is a trade group of concerned businessmen and women who manufacture, distribute and/or sell vapor related products. We bring together the industry sectors of vaping to protect members with advocacy efforts at the state level. Our members are committed to nurturing an educated, reputable and robust vapor industry, through honest public relations efforts and effective advocacy strategies throughout Pennsylvania. We are active members of our communities and we create solid relationships by spreading the message of Tobacco Harm Reduction. Members enjoy additional benefits such as group buying opportunities, educational materials, and assistance with talking to local and state politicians.

PSFA offers two types of memberships to accommodate your specific needs within our growing association. Industry memberships offer the best option for businesses who want to be involved in creation of bills, have voting rights, and who can benefit from the relationships we have with our affiliates. Affiliate memberships are a great way to stay up to date with the vaping industry here in Pennsylvania without the necessity for voting rights and exclusives.

Industry Members: Recognized as a member, with voting rights, ability to be elected as an Officer.

Industry Members enjoy the following benefits:

- Participate in monthly meetings via conference call to stay up to date on what's happening in PA
- Connect with other business owners in our vastly growing network
- Take advantage of PSFA exclusive membership incentives offered
